eyebrow studio sydney australia

eyebrowstudio.com

I have been styling brows for many years and specialise in natural effect eyebrow cosmetic tattooing. Each hair stroke is individually etched into the skin to create a subtle but more defined brow. It's great for filling in gaps, lengthening, thickening, re-shaping and creating more volume. This style of tattooing can also create a more dramatic fashion brow if desired. Most of my brows last around 12-18 months. So throw away the eyebrow pencil and enjoy fabulous and low maintenance brows 24/7!

AFTERCARE PROCEDURE

It is very important that you follow the after care procedure to ensure the very best possible results. You will be provided with aftercare ointment, 3 antibacterial wipes and 3 cotton buds.

Before you leave The Eyebrow Studio your brows will be covered in the ointment. Keep the brows covered in a layer of cream until healed in 10-14 days. Even with the very best care you will lose a few strokes or have small patches that we will address in your touch up appointment. Be prepared for them to fade heaps. If needed we can adjust or darken the colour when I see you next.

At _____ take one wipe and gently wipe both brows once and apply the ointment with cotton bud.

At _____ repeat the process above

At _____ same again.

Each morning use a dry tissue with bepanthan cream to wipe the brows and loosen up any flakes. First wipe in the direction of the strokes and then in the opposite direction. Leave excess cream on to shower to create a barrier then blot them with a dry tissue.

THE RULES

- Don't FREAKOUT about them looking a bit dark. They FADE heaps!
- Don't pick loose flakes.
- Don't use any other face creams on your brows.
- Don't try to scrub them off. (Yes it has been tried!)
- Don't immerse them in water for 10 days. You can swim but cover them with cream and don't get them wet. After 10 days you can swim providing they are completely covered in cream.
- Do keep bubbles away (shampoo, soap, cleansers) for 10-14 days.
- Do avoid applying foundation or brow make-up until brows are healed.
- Don't miss your next appointment. They are not finished (24 hours notice is needed, please).

Your next appointment is _____
